

## MRC London Institute of Medical Sciences (LMS)

### CONSTRUCTION UPDATE

In this period we have continued with the preparation of the site area ahead of the main enabling works commencing.

In conjunction with Ark Burlington Dane Academy, we have relocated their on field storage containers out of the route of the haul road. With the energy centre standby generator now removed from site, we have temporarily relocated the CBRE containers to allow for the drainage diversion works to progress.

We have also commenced the removal of the crane base on site. Using diamond drilling and sawing techniques, this method reduces the noise, dust and vibration to a minimum.

### CONTACT US

If you would like to get in touch, you can communicate with the site team using the contact details below:
